

Nutrition Information

Serving Size: 20gm - 36 Servings per container

Amount	Per 100gm	Per 20gm Serving
Energy	k Calories 198	40
	k Joules 829	166
Carbohydrate	5gm	1gm
Protein	59gm	12gm
Fat	0,2gm	trace
ActiNOS®	50,000mg	10,000mg
Arginine Alpha Ketoglutarate	15,000mg	3,000mg
Beta Alanine	8,000mg	1,600mg
Taurine	7,500mg	1,500mg
Glucuronolactone	5,000mg	1,000mg
Caffeine	750mg	150mg
Green Tea Extract	500mg	100mg
Vitamin C	300mg	60mg
Nicotinic Acid	250mg	50mg

Instructions for use: Mix 20gm (approx 1 heaped measure) with 350ml of water. Take one serving 20-30 mins before your workout.

Store in a cool dry place. WARNING: DO NOT EXCEED STATED DOSE.

Consult with a physician prior to use if you have any medical conditions. Do not use if pregnant or lactating.

Ingredients: ActiNOS® (patent pending peptide fraction), L-arginine alpha ketoglutarate, beta alanine, taurine, glucuronolactone, malic acid, maltodextrin, natural flavourings, natural colourings (betanine, beta carotene), caffeine, green tea extract, artificial sweeteners (sucralose, acesulfame k), vitamin c, nicotinic acid.

Flavour: See Lid

Best Before: See Side

High protein amino acid sports drink mix with natural flavourings and artificial sweeteners.

NOS Fusion contains ActiNOS® which is exclusively licensed by Glanbia PLC to Reflex Nutrition Ltd for use in the UK. This exciting new product contains patent pending nitric oxide technology. This formulation will deliver a new kind of experience from a nutritional supplement.

Put simply, this is the ultimate nitric oxide supplement. It is designed for athletes that are seeking great pumps, intense focus during workouts and enhanced muscular growth.

Please do not think that NOS Fusion is just another NO product. Nothing on the market today compares to NOS Fusion. This is yet another product that delivers "Tomorrow's Nutrition Today."

What makes NOS Fusion so special?

Nearly all of today's NO (nitric oxide products) have one serious design flaw. They don't have the technology to up regulate NOS (nitric oxide synthase) enzymes. When you consume Arginine to boost NO levels your body uses NOS enzymes to convert the Arginine to nitric oxide. The limiting factor is your body has a limited amount of NOS enzymes.

NOS Fusion contains 10,000mg of ActiNOS®, a patent pending bioactive protein peptide complex that is scientifically proven to increase NOS levels by up to 950%.

How does ActiNOS® work?

The two pathways by which ActiNOS® activates the NOS system are as follows:

- Bioactive protein peptides in ActiNOS® bind to receptors on vascular endothelial tissue to activate the NOS enzyme.
- ActiNOS® also contains components that protect native NOS stimulators and up regulate Ca levels in the cell that is important in functioning of NOS.

Activation of NOS boosts nitric oxide production thereby increasing vasodilation allowing more blood to flow into the muscles delivering more amino acids and vital nutrients for growth and repair.

ActiNOS® promotes Nitrogen Retention.

Not only is ActiNOS® a scientifically proven NOS activator but also has the ability to boost protein synthesis and nitrogen retention from its high levels of branch chain amino acids and bioactive peptides.

When you take NOS Fusion your workout will be more focused and energised.

NOS Fusion contains scientifically proven Caffeine, Taurine and Glucuronolactone for increased energy and mental focus. With the right mindset, new goals can be achieved, more weights can be pushed and more muscles can be stimulated. Let NOS Fusion help take you to a new level.

Antioxidants to combat Free Radicals

Strenuous sports and training sessions for endurance and strength can often cause muscle injuries which are exacerbated by simultaneous production of free radicals. NOS Fusion helps combat free radical damage with the inclusion of Green Tea extract and Vitamin C.

A Guarantee that means business.

Don't settle for second best, use NOS Fusion and enjoy GUARANTEED results. If after trying NOS Fusion you feel that it has not performed to your high expectations, then please return it for a full refund of your purchase price. NO QUESTIONS ASKED.
